3. If using a computer go to their main page and hit the 3 dots on the left and click on "get transfer link" (see arrow in picture)

4. If using a smartphone, follow the onscreen instructions

Helpful Tips

Use your smartphone or tablet.

Use a neutral backdrop. A wall works best.

Find a quiet room. Turn the TV off, silence your phone, tell your roommate to stop singing, and shut the windows.

No shadows. Don't use overhead lighting, as it creates strong shadows under your eyes and chin. Use natural light, or daytime fluorescent bulbs (tungsten bulbs create a less appealing "candlelight" effect). It's all about the eyes, so make sure they are clearly lit and in focus.

Always watch it back before sending. You never know if there will be a tech problem. Make sure it looks and sounds good, and is in focus.

Look your best. Make yourself camera ready (hair, makeup, outfit), and make sure you are well rested.
